Eriez® 5-Star Service Center Expertly Repairs and Upgrades Magnetic Pulleys

Eriez' Magnetic Pulleys separate heavy tramp iron and fine iron contaminants from conveyor transported materials in numerous industries. Now, through Eriez' 5-star Service Center, these heavy-duty Pulleys can be repaired and upgraded for optimum efficiency. The Center is located in Lake City, PA. and is staffed with trained service technicians to handle even the toughest service projects.

[Magnetic Pulleys](#) help prevent machinery damage and product contamination for food, chemical, mining, rock products, ceramic, paper, coal handling and foundry operations. Over time, Magnetic Pulleys used in harsh industrial environments may wear, but can be restored with proper maintenance.

To keep magnetic strength at an optimum level, the Eriez 5-Star Service Center now offers a comprehensive maintenance program for Magnetic Pulleys. Portions of

the maintenance program include:

- Perform a visual inspection of shaft, coils, magnetic element, collector rings and housing
- Upgrade magnetic coils or magnetic element, if necessary
- Clean housing of all grease and dust
- Test the Magnetic Pulley and ship back to customer

“Our team is ready to do whatever it takes to address customers' issues and limit costly downtime of their magnetic pulleys,” said Jim Lasko, Eriez' 5-Star Service Center Manager. “We utilize original OEM parts, remanufacture equipment to original specifications and offer ‘as new’ warranties.”

Eriez also has service technicians available for in-house repairs and routine maintenance checks. “We understand that sending the equipment to our 5-Star Service Center is not always a viable option, so Eriez will come to you, even on short notice,” said Dave Hansen, Eriez' Customer Service Manager.

Besides Magnetic Pulleys, the 5-Star Service Center upgrades and maintains other Eriez equipment, including Eddy Currents, Suspended Electromagnets, Wet Drums, Vibratory Feeders, Lift Magnets, Scrap Drums and Metal Detectors.

Eriez stores several years of equipment records to help expedite servicing. Eriez' 5-Star Service also offers customers Instruction and Operation Manuals (IOMs) on the above equipment, parts lists and step-by-step troubleshooting procedures.

For an immediate estimate or more information on Eriez' 5-Star Service, customers can call the service hotline at (888) 999 ERIEZ (3743).

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
